

**TABLE SB. Product Classes—Indexes of Production and Unit Value for Primary Products Shipped by All Producers: 1963 and 1958**

Product code	Product and year	Indexes (1954 = 100)	
		Production	Unit value
1321	1958..	164	122
		115	107
		156	88
		115	104
1321	1958..	170	147
		115	109
2	1958..		

The unit value relative for the period 1959-1962 was obtained by dividing the value of the products shipped in 1959 by the value of the products shipped in 1962, the value estimate on a basis comparable to 1963, indicated in table 6A, footnote 4.

**TABLE SO. Shipments of Primary Products Distributed by Unit Value: 1963**

Product and average unit value at plant	Unit of measure	Quantity shipped				Value of shipments			
		Quantity		Percent of total quantity		Value (\$1,000)		Percent of total value	
		United States	West South Central	United States	West South Central	United States	West South Central	United States	West South Central
Natural gas liquids, total .....	1,000 barrels	458,197	339,737	100.0	100.0	913,496	674,136	100.0	100.0

The "average values" are based on the entire shipments of the specified product by each establishment. Thus they are representative of varied average prices among establishments but not of variations within an establishment.
